

**APPLICATION TEST
DEVIATION REPORT FORM**

Script Number/Version: RBRMasterData3.4_v2.0

Deviation Log Number:

Test Step:

Run Number:

Problem

DETAILS/DESCRIPTION:

The script tests the ability to modify a number of items all at once instead of opening each individual item and making the modification one at a time. At the time of the issue, a group of items with differing labels has been selected and a modification has been made. In step 2.22, the user clicks on "Save" and the result should be a pop up alerting that the items have been updated. Instead, step 2.22 produces an error message "No label templates found for this item!"
